Names on Drugs and Poisonous Minerals.

WE sek the afflicted of eithersex, which do you profer? a pleasant and delicious syrup, compounded from Nature's own Remedies,—one which will speedly and permanently cure you; or the vilk compounds heretofore used, with all their Naussous and deblitating effect, together with the loathsome disease, many since following the use of Mineral Poisons.

The "Cherokee Remedy" is Nature's own Specific for Gonorthes, Gleet, Gravel, Stricture, Fluor Albus (Whites in Females) and all diseases of Urinary Organs; curing these diseases by natural laws after all other preparations have failed, and is one of Heavens best mercies to offending man lintances could be produced of his effects, which would stagger cree fility.

The naussous preparations beretofore used have failed; but this has naver in one incance been known to fail. Happily for mankind, the Giverner of the world is a Father who afflicts, not to kill, but to cure!

to cure!

In mercy he has appointed Medicines for these dreadful diseases, which when taken, quickly flies to all parts of the system, attacks the disease at every post and with a fidel, and courage truly admirable, never gives it rest until it has completely expelled it from the body, and restores the unfortunate patient to former health and vigor.

This Remedy strikes at the very root of the disease; its tendency is not simply to suspend the poison, but to remove the cause on which it depends.

And what ENE INCES ITS VALUE, is the entire absence of all someons tasts or med. It was entire absence of all manscon tosts or smel : It can lay in the counting room, or on the toilet table, without ever being suspected as a 'Remudy' for se-

directions for their because the bottle.
